

EDU-TOURISM UMPSA

Nature and Adventure Package

No.	Programme	Duration
1.	Knowledge in Biodiversity (National Park)	16 hours
2.	Interaction Session & Cultural Exposure	8 hours
3.	Nature & Adventure Activities	4 days

Knowledge in Biodiversity

Provide a deeper understanding of ecological principles, conservation strategies, and the scientific methods used in biodiversity research. It can also encompass disciplines such as biology, ecology, environmental science, and geography, aligning with academic standards and curriculum requirements.

Interaction Session & Cultural Exposure

Engage with local communities, fostering cultural exchange. Also provide language classes, traditional craft workshops, and discussions with locals.

Activities:

- Explore and understand the unique customs, traditions, and way of life in Pahang, enriching educational journey by gaining insights into the local culture.

Hands-on: Tempoyak Ikan Patin

Nature & Adventure Activities

Exploring the Biodiversity
(3 Days 2 Night at National Park, Kuala Tahan)

In this module, you will be introduced to the local flora and fauna. You will get to learn about various plant species and animals as well as their habitats.

Activities:

- Exploring the Biodiversity and the truly tropical life in National Park
- Experience walking on the world's longest canopy walkway, visiting the aborigine village, trekking under rainforest canopy, climbing the highest mountain in Peninsular Malaysia, caving, fishing, camping, observing wildlife, and many more
